

**Sensor cube for multiaxial arrangement of SEIKA accelerometers and/or SEIKA inclinometers**

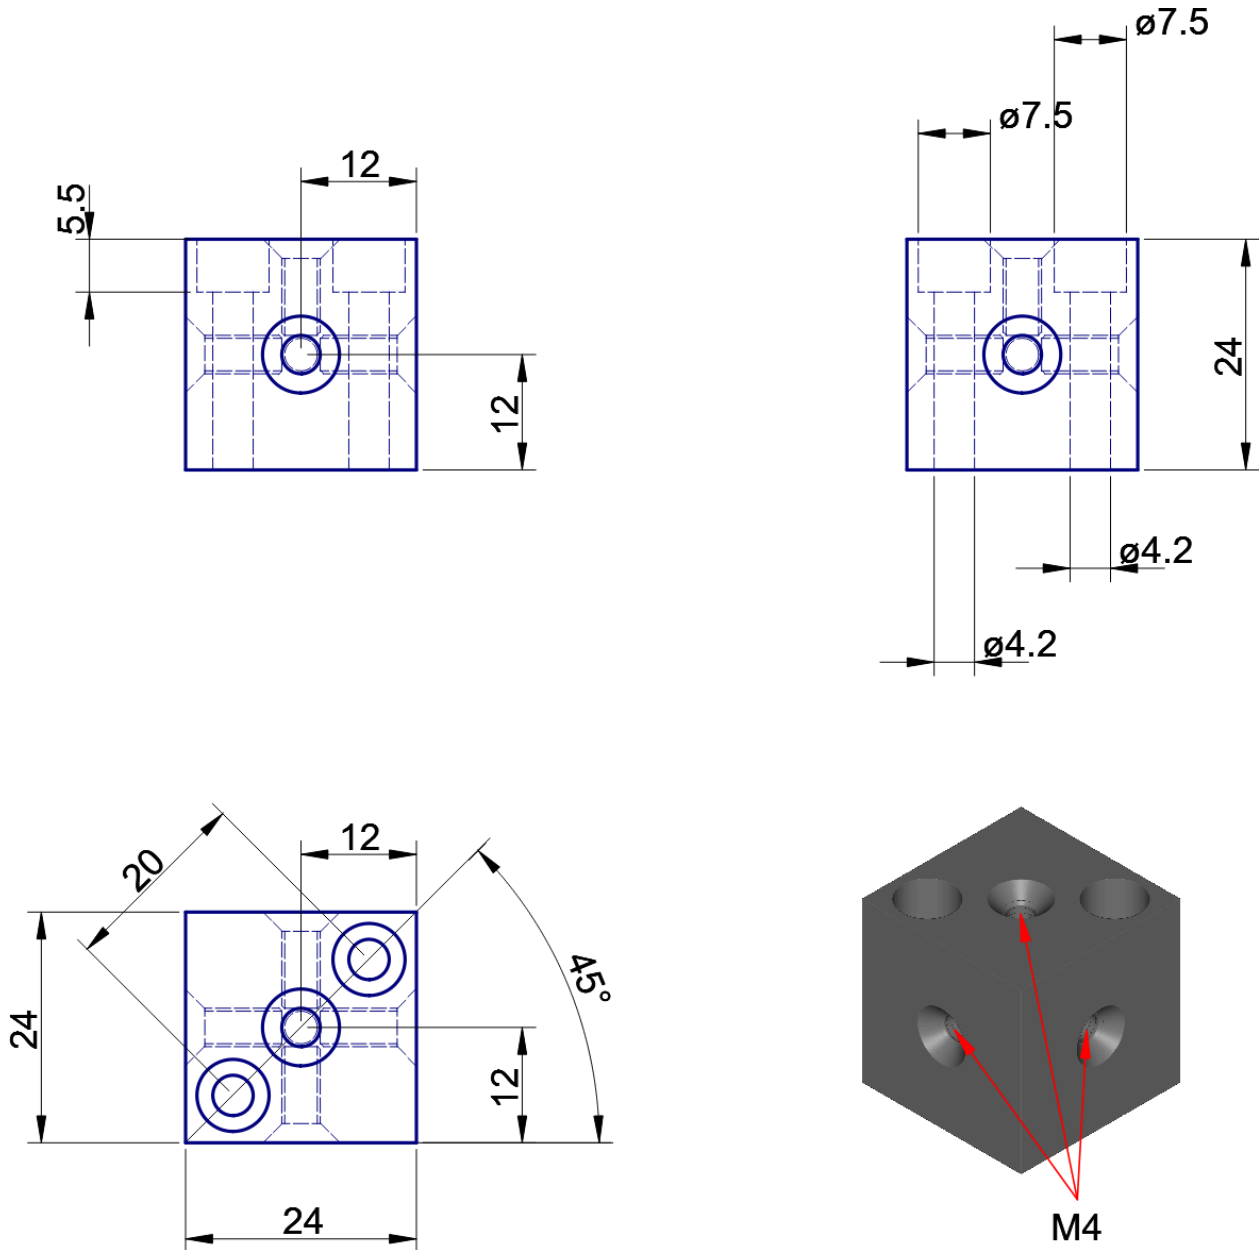

## Description

The SW3 can accommodate SEIKA sensors for measurements in up to three directions. The SEIKA inclinometers B1, B2, B3, BDK3, BDK10, BDK100, N2, N3, N4, NB2 and NB3 can be integrated in any combination according to customer's specifications.

## Specifications

Material	Aluminium or plastic (POM)
Weight excluding sensors	Aluminium: approx. 34g or plastic: approx. 17g
Weight including sensors	Aluminium: approx. 34g or plastic: approx. 17g

Dimensions (in mm)

**Attention! When ordering, please indicate insulated (in combination with the NV6a) or non-insulated sensor assembly (in combination with the NV4a and NV8a)**
